#### **PREA Implementation**

Working Alternative's has continued to enforce a zero-tolerance standard for sexual abuse and sexual harassment. The Facility continues to use training materials, handbooks, logs, and signage to keep the standard of zero tolerance relevant with staff, volunteers, vendors, contractors, visitors, and residents.

New employees continue to receive training on PREA during their orientation, and annual refresher training is provided to all staff.

Residents continue to receive orientation to PREA upon their arrival at the Facility, which includes a posting of the available points of contact to report allegations of abuse or harassment. The signage in the RRC is updated when changes to the points of contact or community resources occur.

The Facility employs a designated PREA Liaison to assess residents for risk of abuse, and to provide victim resources. The Liaison, Facility Director Yvette Raygoza, also continues to serve as an investigator if allegations arise of sexual abuse and sexual harassment. There were (3) reported PREA allegations during this reporting period. One allegation was reported to have occurred at a federal institution prior to the resident's arrival to the Brawley RRC. The allegation was forwarded to the institution's PREA Coordinator for disposition. Another allegation was investigated administratively, classified as substantiated, and disciplinary action was taken. And the third allegation was referred to the Department of Justice for investigation. The

disposition is pending. During the last (3) years, there were (3) additional PREA allegations. The first was referred to law enforcement and the disposition is pending, the second reportedly occurred at a federal institution prior to the resident's arrival to the Brawley RRC and the information was forwarded to the institution's PREA Coordinator for disposition, and the third was investigated administratively and classified as unsubstantiated/unfounded.

The Facility continues to deploy a designated PREA Coordinator and Chief Operations Officer Grant Weiss serves in this capacity.
